AN INSTITUTE OF FITNESS SCIENCE

IC FITNESS CLUB RECOGNISED BY

## DPT (Diploma in Personal Training)

Diploma in personal training is the foundation course in fitness science. Our DPT provides theoretical and practical knowledge to the students to equip them with the complete knowledge about exercise and posture of the body. This is the first course if someone is looking to build his career in the fitness industry. Our DPT course includes theoretical, practical and demo lectures to help the student to understand the fitness science in the most easiest and effective way. This course makes the students to work professionally and work as a certified personal trainer in the fitness industry.

Our DPT course has triple assessment; theoretical exam, practical and viva exam. To become certified trainer students have to clear all the three assessments within the validity of the course. Students will be given free chances to appear in the exam till the validity expires. After passing all the triple assessments students will be eligible to work as a personal trainer globally.
